Mazak FJV Sub Menu Title Fix

SWI-016 Rev. A

If the hard drive is replaced on the Mazak-FJV mill, and the sub menu headings (i.e. manual coolant headings, etc.) are not available then follow these instructions to restore.

1. Find .lpc files on old Mazak drive
 - a. Or on the old hard drive if still available at c:\m6y_ymw\MPLC
2. Copy these .lpc files, to the new hard drive at this location:
 - a. c:\m6y_ymw\MPLC
3. Reboot PC, and the sub menus should restore after reboot.

If problem continues, Mazak support will need to be called
